## Children's Birthday from age 8

# Baking Bread

Spend an exciting afternoon with your birthday boy or girl and his or her friends baking bread and sliding down the sack slide! From flour, salt, water and yeast, each child makes his or her own dough. How much strength and endurance it takes to knead the sticky mass into a smooth dough! While the dough rests under the bowl, the children learn how the mill works. Then it's up to the top floor, where the sack slide awaits. Like a full flour sack, we hurtle down the fast-paced curves!

Back in the bakery, the task is to transform the dough into small works of art: Can it be a prickly hedgehog, a cat or even a snarling crocodile? As soon as the imaginative creations are baking in the oven and emitting their delicious aroma, it's time to celebrate the birthday!

The first two hours the children are supervised by the workshop leader. During this time you can prepare the snack and decorate the table. Plates, cutlery, drinking cups and napkins are provided. In the last 45 minutes you will celebrate the birthday. During that time you take responsibility for the children.
