## Children's Birthday from 5–7 years

# Mouse Adventure

Sniff, feel, prick up your ears... psssst! We are on a treasure hunt! Together with Mimi, the museum mouse, we discover the life of mice in our mill. First, Mimi leads us into the cozy, dusky mice nest, where the mouse newbies have a lot to learn. How does a mouse find its way in the dark? And how do mice get along without talking to each other? Then it's off on a stalk through the mill, because somewhere the flour ghost is hiding a treasure! Various tasks and tests of courage await, e.g. a giant mouse trap...

At the end of the treasure hunt, all mice slide down the sack slide. In the last half hour, they can celebrate the birthday in the mice nest.

The program is conducted by a workshop leader. They are supported by the two accompanying adults of the birthday groups. While the group is on the trail of the treasure in the museum, one accompanying adult can prepare the mice nest for the celebration. During the last half hour, the accompanying adults are responsible for the children.
